THE CHURCH FOR ALL . ALL FOR THE CHURCH The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civiliz tion can survive. There are four sound reasons why every person should at tend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4)

For the sake of the Church itself, which needs his moral and material support. Book Chapter Verses

I wished that I might be given the wisdom to care for Sue's body, mind, and soul. And I was deeply grateful that I had the Church to help me teach her right from wrong, and to aid me in endowing her with a rich measure of faith, of love, and of tolerance toward her

Thinking it over, I guess that my wish for Sue might be called a prayer. Each Sunday, in church, I find myself repeating it.

HE PROFITS FROM ADVERTISING!

There are definite rules how to use it and the first rule is to budget the advertising the same as to budget the rent, payroll, gas, lights and water. Regular advertising is the keynote. No longer is advertising for clearance sales only. Customers want to know about regular price line merchandise too.

And there must be some reason why there is more advertising done in newspapers than in any other media. In fact, there is as much advertising done in newspapers as in the next highest three media combined.

All advertising is good, some better than others!

The Thrifty HOUSEWIFE KNOWS

SHE PROFITS FROM ADVERTISING!

She Has Found From Experience that she fares Better When She Buys From Those Stores Which Advertise Regularly in Newspapers!

HE PROFITS FROM ADVERTISING!

No business has to advertise. An experienced ad man is the first to disagree with the oftrepeated statement that 'You have to advertise.' Because you don't. But the most successful merchants are those who advertise. Because they want to let their customers know about their latest values and they have no fear to let their competitors know the same as their customers.

There are definite rules how to use it and the first rule is to budget the advertising the same as to budget the rent, payroll, gas, lights and water. Regular advertising is the keynote. No longer is advertising for clearance sales only. Customers want to know about regular price line merchandise too.

And there must be some reason why there is more advertising done in newspapers than in any other media. In fact, there is as much advertising done in newspapers as in the next highest three media combined.

All advertising is good, some better than others!
